4/17/73--Quick response to your request re NYT watergate clips. I haven't been sending you everything that appears in NYT. I have it delivered every morning. If I see a special story which I think you'll want a copy of, I go to the stand and buy a second copy, and usually send right away. Otherwise, I just clip for myself. However, I'm a notorious trash-picker when it comes to newspapers and magazines. Many times, people in the dorms will leave huge piles of NYT in the hall for trash pick-up. When I see these, I take them in and clip the watergate stories for you, which is why some arrive so late. Is Jim White sending you copies of NYT coverage on a daily basis? I'll be more prompt. Also, I haven't forgotten your request for library work re CIA foundations-Littauer. I'm very busy now, and will try to get to it soon as possible. I think I have all your files on this, including recent ones, at home. If Jim wants to do work on this in the near future, I can return these files when I come down next. Currently there seems to be little possibility of doing my senior thesis on this. I'll probably be doing it on the wartime diplomacy of FDR, which (I think) is pretty misunderstood, esp. by the newer historians. Spring break came early this year, and there was no chance of me coming down then. We get out the first week in May, but for my own selfish reasons I was thinking of coming down a little later this year when the pool is ready. As you probably realize, I've never used the pool, but now that swimming is a daily routine with me, I think I'll be getting a lot of use out of it. Also have to see what develops on a summer job--good possibility of working as a researcher for a history prof. Best to Lil--HR
